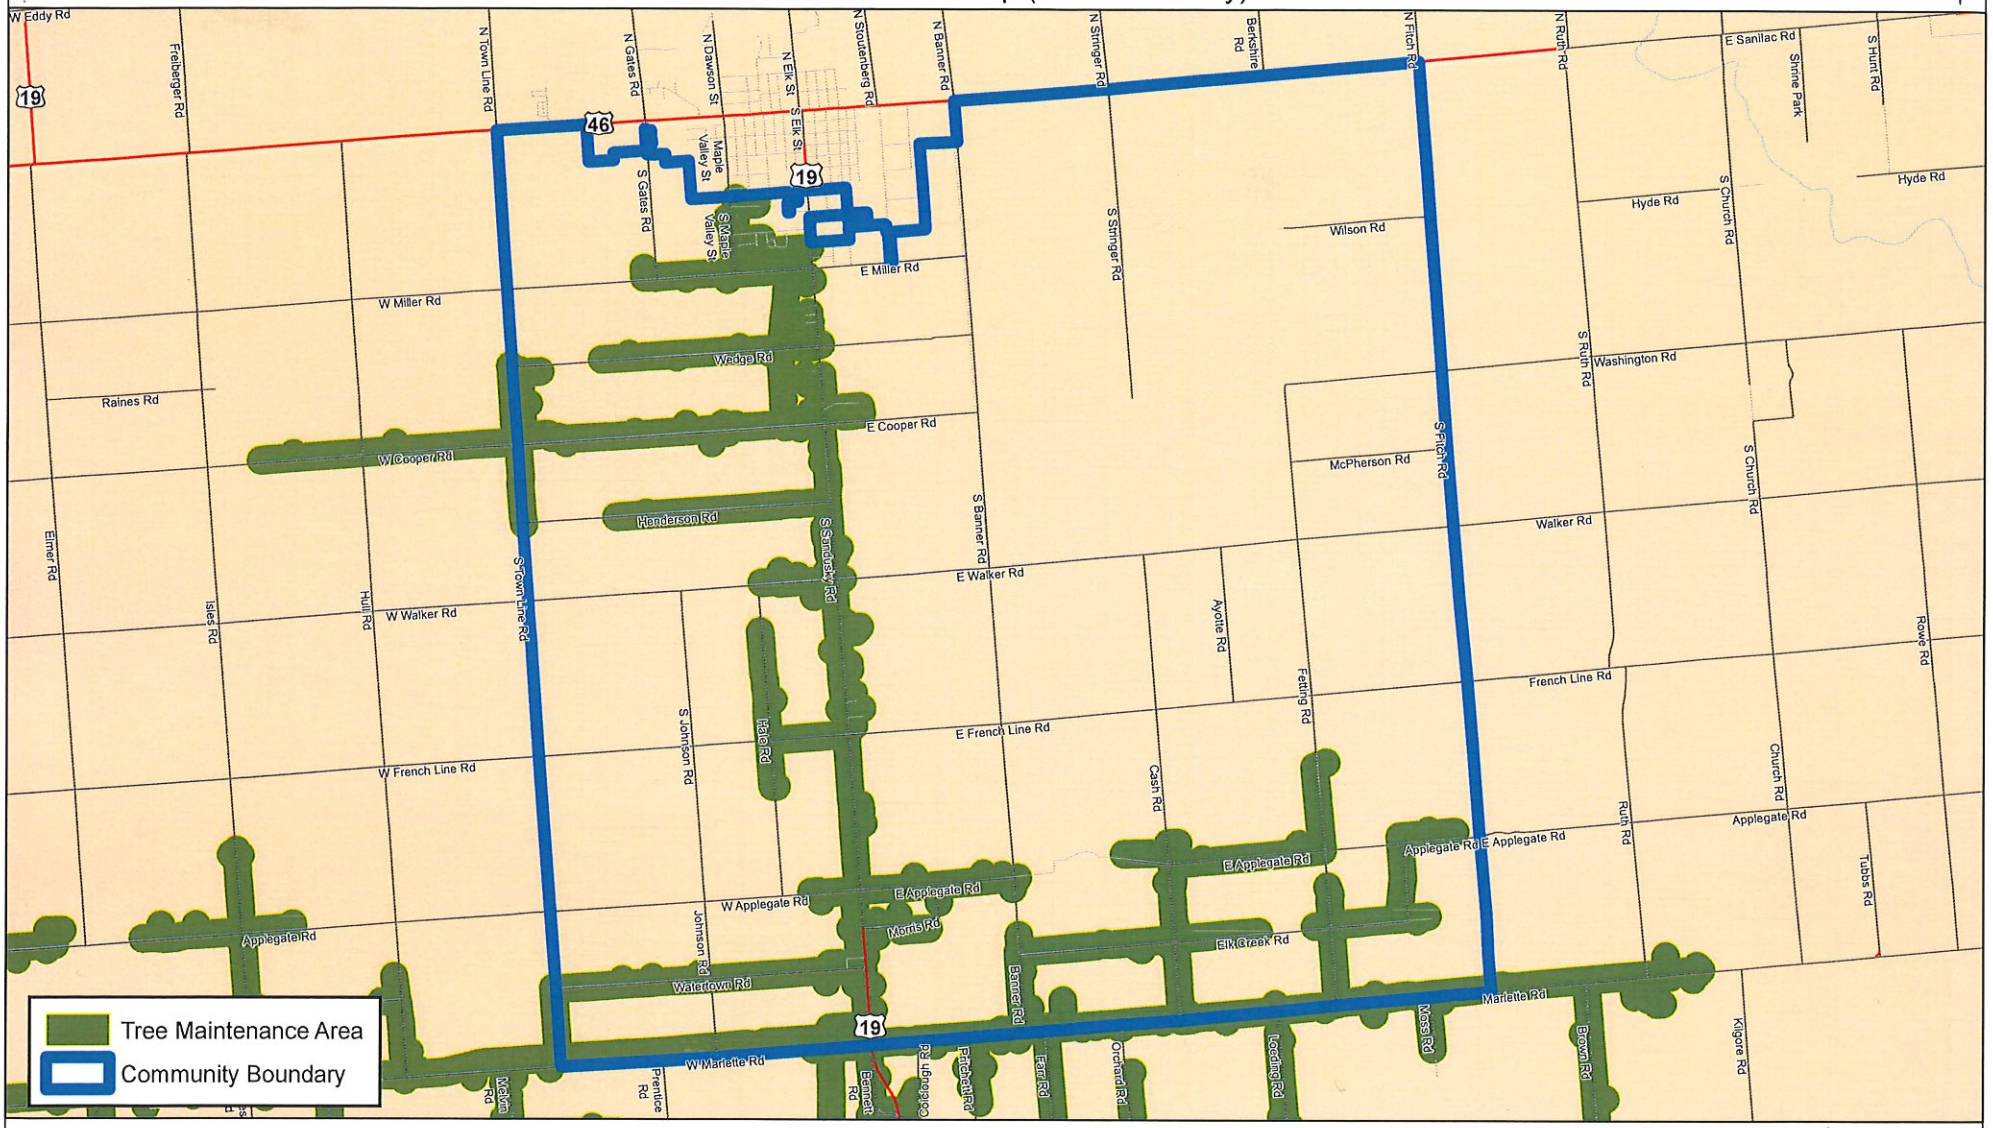
2020 Tree Trim Maintenance Program

Watertown Township (Sanilac County)



- Two-thirds of the time DTE Energy customers spend without power is due to trees.
- Tree trimming is an industry-wide solution to prevent outages. DTE Energy follows industry best practice and standards for tree trimming.
- DTE Energy works collaboratively with customers every step of the way to address their concerns before we begin work.

Please note: During 2020, DTE is planning to trim trees within the area shaded green. Additional tree work may be necessary based on circuit performance to improve reliability. Severe weather, or other circumstances may change the timing and extent of the work
